March 30, 2011

Dear Patient and Friends,

I am writing to inform you that as of March 31, 2011, I have retired and no longer will be available to see you at EyeHealth Northwest. Since my first eye surgeries were performed forty years ago, perhaps it is time to reassess and move on. I have enjoyed working and being involved in the development of a premier ophthalmic practice.

I have been privileged to know some of you for many years. It has been a special life for me. For those of you who have trusted me with your eye care in the past, I am truly grateful, and I thank you for your trust and loyalty.

For your future ophthalmic needs, you should know that I have been blessed with fantastic partners who share the best in surgical and diagnostic skills. Drs. Waldman, Hauptmann, Saulson, Kemp, Holland and Kim are all saving time in their schedules to meet your needs. I cannot pick the best, because they are all great.

My health has been excellent, and my wife and I want to travel, attend more of the grandkids games, recitals, plays and other events. And of course it's hobby time. I purchased my first antique car (a Model T Ford) at age thirteen, and now Sharon and I belong to a club that likes to drive these oldest automobiles. So if you see some ancient cars out on a drive, we may be there. See you down the road.

Sincerely,

Donald F. Plumb, MD
