## QUESTIONS ON UNDERSTANDING YOUR PROCEDURE: ALL LASER LASIK

The following questions cover important information contained in the video presentation. Please circle the answer you feel most correct. If you need more time to answer a question than the video presentation provides, skip that question and return to it when the program is over. Once you have completed the questions, compare your answers to those found at the bottom of the page.

1. TRUE or FALSE: LASIK will permanently change the shape of your cornea.
2. TRUE or FALSE: Your surgeon cannot guarantee your result or how well you will see after surgery.
3. TRUE or FALSE: You may experience side effects such as haze, glare, halos, light sensitivity, and dryness of the eyes that may not go away completely.
4. TRUE or FALSE: If your eyes measure 20/20 that means you will see everything perfectly clear.
5. TRUE or FALSE: After the surgery, your follow-up visits are not very important.
6. TRUE or FALSE: It is not important to wear protective eyewear when involved in activities where your eye could be accidentally hit.
7. TRUE or FALSE: You should not drive yourself until your doctor has told you that you have legal driving vision.
8. TRUE or FALSE: There is the possibility that another operation may be necessary after the initial procedure to obtain your best possible level of vision correction.
9. TRUE or FALSE: It is possible you might still need to wear glasses or contacts, or that LASIK could cause loss of vision.
10. TRUE or FALSE: You may experience mild to moderate discomfort for a few days after the procedure.
11. TRUE or FALSE: LASIK will eliminate your need for reading glasses when you are over 40 years of age and experience presbyopia.
12. TRUE or FALSE: The program that I watched covered all the known and unknown risks and complications that have occurred in the past or could occur in the future.

### ANSWERS:

1. TRUE: LASIK will permanently change the shape of your cornea.
2. TRUE: There are no guarantees as to exactly how well you will see after LASIK.
3. TRUE: You may experience side effects such as haze, glare, halos, light sensitivity, and dryness of the eyes that may not go away completely.
4. FALSE: It is possible to measure 20/20 but the 20/20 line could be slightly blurry.
5. FALSE: After the surgery, follow-up visits are very important.
6. FALSE: It is important to wear protective eyewear when involved in activities where your eye could be accidentally hit.
7. TRUE: You should not drive until your doctor tells you that you have legal driving vision.  
It is possible that you might still need to wear glasses or contacts, or that LASIK could cause loss of vision.
8. TRUE: It is possible that you may require additional surgery to obtain your best possible level of vision correction.
9. TRUE: It is possible that you might still need glasses or contacts and that LASIK could cause loss of vision.
10. TRUE: You may experience mild to moderate discomfort for a few days after the procedure.
11. FALSE: LASIK will not eliminate your need for reading glasses when you are over 40 years of age, or presbyopic, unless you have the monovision or blended vision procedure.
12. FALSE: The program that I watched did not cover all risks, side effects, and complications that could possibly occur either now or in the future with LASIK.
